

Self-Directed Care

for Family Care & Partnership Members

You have choice.

You can choose to self-direct all of your long-term care services. You are at the center of our planning process.

You pick your help.

Choose who provides your services and supports. You have the option to hire your own caregivers. This may include your family, friends, neighbor, or other supports.

You have a Care team.

Get expert support from the Care Wisconsin team, which includes a Care Manager and Nurse Care Manager.

Self-Directed Care puts *you* at the center of the plan.

- Decide what you want to self-direct
- Choose and hire your caregivers
- Manage your budget
- Self-direct with different levels of support

We are mission-minded.

Our members want to live as independently as possible. For many, Self-Directed Supports helps them do just that.

You are on a mission, too!

To have more responsibility and control. We can help you make it a reality.
