

Partnership 2018 Formulary

List of Covered Drugs

FOR MEMBERS ENROLLED IN MEDICAID ONLY

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Formulary ID: 18306, Version Number 17

This formulary was updated on 9/25/2018. For more recent information or other questions, please contact Partnership Customer Service at 1-800-963-0035 or, for TTY users, Wisconsin Relay 711, 8 a.m. – 8 p.m., 7 days a week, or visit www.carewisc.org.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Care Wisconsin Health Plan, Inc. When it refers to “plan” or “our plan,” it means Partnership.

This document includes a list of the drugs (formulary) for our plan which is current as of 9/25/2018. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

Care Wisconsin Health Plan, Inc., contracts with the Wisconsin Department of Health Services (DHS) to offer the Partnership Program.

To receive this formulary in an alternate format or language, contact your Team or call Care Wisconsin Customer Service at 1-800-963-0035 (TTY/TDD Wisconsin Relay System 711).

What is the Care Wisconsin Formulary?

A formulary is a list of covered drugs selected by Care Wisconsin in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Care Wisconsin will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Care Wisconsin network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Member Handbook.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2018 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2018 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released.

Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary or add prior authorization, quantity limits and/or step therapy restrictions on a drug, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug.

If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 9/25/2018. To get updated information about the drugs covered by Care Wisconsin, please contact us. Our contact information appears on the front and back cover pages.

In the event of a mid-year non-maintenance formulary change, we will mail you updates to the formulary as needed on a quarterly basis. You can also get these formulary updates by contacting your Care Team or printing them from our Web site.

How do I use the Formulary?

Here is how to find your drug within the formulary:

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Formulary that begins on page 1. The Formulary provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Formulary. Look in the Formulary and find your drug.

What are generic drugs?

Partnership covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Partnership requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from Partnership before you fill your prescriptions. If you don't get approval, Partnership may not cover the drug.
- **Quantity Limits:** For certain drugs, Partnership limits the amount of the drug that Partnership will cover. For example, Partnership provides 62 tablets per prescription for Xifaxan. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Partnership requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Partnership may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Partnership will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Partnership to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Partnership formulary?" on page iv for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Partnership does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Partnership. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Partnership.
- You can ask Partnership to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Partnership Formulary?

You can ask Partnership to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Partnership limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Partnership will only approve your request for an exception if the alternative drugs included on the plan's formulary or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary or utilization restriction exception. **When you request a formulary or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with 91 to 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Current members with a change in where they receive care

Partnership has a transition process that addresses unplanned transitions as members change treatment settings due to changes in the type of care they require. Changes in where you live or receive care may warrant a temporary one-time fill exception regardless of whether or not you are in the first 90 days of program enrollment. Examples of situations include:

- You were discharged from the hospital and were provided a discharge list of medications based upon the formulary of the hospital.
- Beneficiaries who give up Hospice Status to revert back to standard Medicaid benefits.
- Beneficiaries who are discharged from Chronic Psychiatric Hospitals with combinations of medications that are highly individualized.

Please note that our transition policy applies only to those drugs that are on our formulary and are supplied by a network pharmacy.

For more information

For more detailed information about your Partnership prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Partnership, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

For more information about Medicaid, please contact the Wisconsin Department of Health Services by calling 1-800-362-3002. You can also get information by visiting their website at www.dhs.wisconsin.gov/Medicaid.

Partnership Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by Partnership.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., EMBEDA) and generic drugs are listed in lower-case italics (e.g., *fentanyl*).

The information in the Requirements/Limits column tells you if Partnership has any special requirements for coverage of your drug.

LEGEND

1: Covered Medications

1(CW): CW OTC

1(ND): Non D RX

1(SO): State OTC

HR: High Risk Medication (PA required for ages 65 or over)

LA: This prescription drug is limited to certain pharmacies

PA: You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

QL: There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.

ST: In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
